

INCLUSION POLICY

AY: 2025 - 2026

Date of Policy	August 2021
Date of last review	August 2025
Date of next review	August 2026
Lead Member of Staff	Principal & Head of Wellbeing

Inclusion Policy (2025-2026)

Introduc<on

Inclusive educa>on is not a project or an ini>a>ve and does not sit solely with individuals who fulfill individual roles within our school.

'Every staff member is responsible for ensuring Inclusion takes place at every level across the school. It is the progressive development of altudes, behaviors, systems, and beliefs that enable inclusive educa>on to become a norm that underpins school culture and is reflected in the everyday life of the school community.' (Dubai Inclusive Educa>on Policy Framework, p53)

1. Principles

1.1 Ra<onale

At Vernus Interna>onal School we value children as individuals and recognize the diversity of our students.

A Student of Determina>on may find it significantly harder to learn or to take part in ac>vi>es compared to students of the same age. These students may require addi>onal support or provision for them to access the same curriculum.

All members of staff are commiXed to offering an inclusive curriculum to ensure the best possible support and outcomes for all students, regardless of need, ability, or aspira>on.

We promote a holis>c approach and follow a social model rather than a medical model and believe all children deserve the opportunity to access an extensive, balanced, and differen>ated academic and social curriculum. Alongside adap>ng the curriculum to cater to all needs, we strive to provide a nurturing environment that develops the well-being of each student.

The guiding principles for inclusion are:

- Every teacher is a teacher of students with SEND. Teaching students with SEND is a whole-school responsibility, requiring a whole-school response.
- Classrooms offer a safe, s>mula>ng, and suppor>ve learning environment that allows access and challenge for all.

- Teaching and learning are approached with an ac>ve awareness of learning difficul>es, learning differences, and learning styles.
- Recogni>on of the importance of emo>onal well and focusing on the development of self-esteem and confidence as a fundamental contributor to achievement.
- Language and literacy are vital to successful learning in all areas of the curriculum.
- Suppor>ng students during phases of significant transi>on.
- To create a community of inclusion that encompasses the needs of all students.

This policy takes account of the Inclusive Educa>on Policy Framework Policy (2017).

The Dubai Inclusive Educa>on Policy Framework Policy has been developed to support the UAE's commitment to the United Na>ons Conven>on on the Rights of Persons with Disabili>es (UNCRPD) as well as federal and local legisla>on that calls for the inclusion of all learners, regardless of ability, in the educa>on sector. The Dubai Inclusive Educa>on Framework Policy (2017) states that a Special Educa>on Need and Disability is:

"A need which occurs when a student iden>fied with an impairment requires the school to make specific modifica>ons or provide specific supports to prevent, remove or reduce any poten>al disability from occurring and to ensure that the student can access educa>on on an equitable basis and within a common learning environment with same-aged peers." **Purpose:**

Vernus Interna>onal School is an inclusive school offering all students with mild to moderate special educa>on needs equal access to a high-quality educa>on. Our school recognizes that, in an inclusive educa>onal environment, all students should be enabled to access the curriculum and learn. This policy aims to put in place provisions for all students who need extra support for learning. This may be because they have a special educa>onal need or a medical condi>on that may have an impact on them access the curriculum. Most of the provision will be coordinated through the Flexible Learning Center led by the SEND. This policy ensures that with appropriately trained learning support specialists and with differen>ated mainstream instruc>on, students with special learning needs can achieve at the op>mal level of which they are capable. Applica>on: What is important for SEN learners to be able to do with their learning 1-5 years from now skills, projects, ways of thinking. Integra>on: What connec>ons should SEN learners make with their lessons in everyday life, other disciplines, ideas, and people?

Human Dimension: How have SEN learners learned to see themselves differently? How have SEN learners learned to see others differently?

Caring: How have SEN learners' values, altudes, and beliefs changed about their learning?

Learning How to Learn: How have SEN learners become beXer learners who are selfdirected and accountable?

1.2 Aims of Special Educa<onal Needs and Disabili<es and Inclusion Policy •

To address the individual needs of all students with a SEND.

- To iden>fy students with SEND as early as possible through admission procedures, observa>on, and diagnos>c tests.
- To ensure that students with SEND have equal access to an extensive and balanced curriculum that suits their learning style and needs.
- To work with the Execu>ve CommiXee in formula>ng an accessible curriculum for all students.
- To collaborate with class teachers to ensure that students with SEND have their lessons appropriately differen>ated to enable students to overcome any barriers to learning.
- To provide informa>on and support to class teachers about students with SEND on their difficul>es and recommend strategies for their educa>onal provision, sharing examples of good prac>ce.
- To successfully track and monitor the progress of all students with SEND to ensure each student makes expected progress.
- To ensure that parents are involved in their child's learning and gain an understanding of their SEND.
- To involve students in the development and review of their own learning journey and 'Individual Educa>on Plans' (IEP).
- To liaise with outside agencies when specialist support is required.
- To support staff in embedding inclusive strategies within the classroom.
- Mandate an Inclusion Support Team to oversee SEND provision and exemplary prac>ces across the school.

2. Legisla<on

2.1 This policy aims to ensure that Vernus Interna<onal School is compliant with:

- The UAE Federal Law 29(2006) concerning the 'Rights of People with Special Educa>onal Needs.
- The UAE Federal Law 2 (2015) against 'Discrimina>on and Hatred'.

2.2 The school admission policy adheres to the s<mula<ons of: •

The Dubai Inclusive Educa>on Framework Policy (2017);

- The UAE Federal Law 29 (2006) concerning the 'Rights of People with Special Educa>onal Needs;
- The UAE Federal Law 2 (2015) concerning the 'Protec>on of the Right of Persons of Disabili>es in the Emirate of Dubai;
- UAE Execu>ve Council Resolu>on No. 2 of 2017 Regula>ng Private Schools in the Emirate of Dubai.

Defini<on of Special Educa<onal Needs

3.1 Special Educa<onal Needs and Disabili<es (SEND)

- A student with a SEND may find it significantly harder to learn or to take part in ac>vi>es compared to students of the same age. These students may require addi>onal support or provision for them to access the same curriculum.
- Special educa>onal provision means a provision, which is addi>onal to, or otherwise differen>ated from, the educa>onal provision made generally for children of the same age. The aim of the provision is to ensure the student can access educa>on on an equitable basis and within a common learning environment with same aged peers.
- A student may be iden>fied as having a learning difficulty if he/she:
- Has a significantly greater difficulty in learning than the majority of children of the same age.
- Has a disability that either prevents or hinders the child from making use of educa>onal facili>es provided in comparison to children of the same age.
- The UAE School Inspec>on Framework defines a Special Educa>onal Need as "Educa>onal needs that are different from those of the majority of students, and which arise from the impact of a disability or recognized disorder."

3.2 Disability

A Disability is 'a physical or mental impairment which has a substan>al and long-term adverse effect on your ability to carry out normal day-to-day ac>vi>es.' This is all that is needed.

3.3 Discrimina<on

The UAE Federal Law 29 (2006) defines discrimina on as "Any segrega on, exclusion or restric>on due to special needs leading to the damage or denial of recogni>on of any rights granted by the prevailing legisla>on in the country or its prac>ce or enjoyment on an equal foo>ng."

3.4 Barriers to Learning

AJtudes, beliefs, prac>ces, physical or technological obstacles, or the lack of support, that result in a student's exclusion from, or in their less-than-full par>cipa>on as a valued equal in, the common learning environment in mainstream schools and classrooms.

3.5 Inclusive Educa<on

Inclusive educa>on is about ensuring access to quality educa>on for all students by effec>vely mee>ng their diverse needs in a way that is responsive, accep>ng, respeclul, and suppor>ve.

This is evident through student engagement and par>cipa>on in an educa>on program within a common learning environment with the benefit of targeted support that enables the reduc>on and removal of barriers that may lead to exclusion.

Inclusive educa>on is not a project or an ini>a>ve but rather the progressive development of aJtudes, behaviors, systems, and beliefs that enable inclusive educa>on to become a norm that underpins school culture and is reflected in the everyday life of the school community.

3.6 Impairment

A medically iden>fied condi>on or long-term limita>on of a person's physical, mental, cogni>ve, communica>ve, and sensory func>on.

3.7 Common Learning Environment

- An educa>onal seJng where students from different backgrounds and with different abili>es learn together in an inclusive environment.
- Common learning environments are used for the majority of the student's regular instruc>on hours and may include classrooms, libraries, gyms, performance theatres, music rooms, cafeterias, playgrounds, and the local community.
- A common learning environment is not a place where students who experience SEND learn in isola>on from their peers. Effec>ve common learning environments:

- Enable each student to fully par>cipate in the learning environment that is designed for all students and is shared with peers in the chosen educa>onal seJng;
- Provide a posi>ve climate, promote a sense of belonging, and ensure student progress toward appropriate personal, social, emo>onal, and academic goals;
- Are responsive to individual learning needs by providing sufficient levels of support and applying student-centered teaching prac>ces and principles.

3.8 Equity

It is the extent to which individuals can take advantage of educa>on and training in terms of opportuni>es, access, treatment, and outcomes. Equity is not the same as equality.

It assumes that learners have different needs that require different types of support in order to develop their full learning poten>al. Equity therefore requires differen>al treatment that takes account of student diversity and reduces the gaps between the outcomes achieved by the most advantaged and the least advantaged social groups.

Equity in educa>on for students with special educa>onal needs and disabili>es occurs when schools ensure access to a learning experience that promotes a sense of belonging and enables appropriately challenging levels of academic and social engagement.

4. Categories of Need

The following is based upon the United Arab Emirates unified categoriza>on of disability.

- It provides schools with an important structure to support the iden>fica>on of students of determina>on and VIS follows this within their iden>fica>on and categoriza>on of Students of Determina>on.
- The 4 categories are as follows;
- 4.1 Cogni>on and learning (Intellectual disability, Specific learning disorders, Mul>ple disabili>es and Developmental delay) (younger than five years of age)
- 4.2 Communica>on and Interac>on (Communica>on disorders, Au>sm spectrum disorders)
- 4.3 Social, emo>onal and mental health (AXen>on Deficit Hyper Ac>vity disorder, Psycho - emo>onal disorders)
- 4.4 Physical, sensory and medical (Sensory impairment, Deaf-blind disability, Physical disability and Chronic or acute medical condi>ons)

Classifica<on of Stages of SEN and the levels of support expected:

Kindergarten Stage

Due to the developmental stages of children in KG, their learning needs are supported by a system of monitoring and observing the learning paXerns of all children over their first two years at the school. In this the school follows the best interna>onal prac>ce in SEN which delays formal interven>on un>l aper this ini>al educa>onal phase. The SEN team will support and advise class teachers on strategies and approaches to maximize learning. Baseline assessments are conducted in a range of basic skills and records of these are compared and tracked over the first two years.

- Wave 1 Classroom teacher response to a student's learning need. Teachers should differen>ate their lessons by using a student's provision map/learner profile or other formal record of the student's needs which should be accessible to all teaching staff. Effec>ve inclusion of all children in high-quality lessons where teachers differen>ate according to individual student's needs as determined by each student's learner profile and anecdotal ongoing assessments. Examples of sources of informa>on are teacher plans; provision maps; parent mee>ngs; student goals; and volunteer support.
- Wave 2 Where Wave 1 is not working or that the learning need is more severe. Therefore, more support is required, and this could take the form of withdrawal in groups or a Junior Teacher in the classroom working with a group of students. This will be a provision that goes beyond the 'normal' classroom. This may also possibly involve some external assessment. Children are expected to catch up with their peers as a result of specific in-class interven>ons such as withdrawal groups supported by a support teacher or teaching assistant. Examples of sources of informa>on are provision maps; IEPs; ILP; learner profiles; teacher plans; provision maps; accelera>on; enrichment; and withdrawal groups.
- Wave 3 Specific targeted support for individual students whose needs are not met by Wave 1 or Wave 2 interven>ons. This would probably involve external assessments from educa>onal psychologists and associated therapists. A high level of support would be needed, possibly a one-to-one learning support assistant (LSA). Withdrawal from lessons for extra literacy and numeracy lessons would be necessary. The curriculum could not be accessed without this level of support. Examples of sources of informa>on: are individual support plans; regular reviews; specialist assessments; screenings; associated resourcing; and target success trackers.

Eligibility Determina<on in the ELL Program

The screening of the students for the ELL Program shall be based on Evidence from CAT 4, MAP, Internal assessment (Forma>ve Assessment, Summa>ve Assessment) Parents' observa>on, assessment of the class teacher, assessment of the SEN teacher, assessment of the Head of inclusion or Wellbeing, evidence from students' porlolios. ELL Support Team

- The ELL Support Team would comprise Middle Management and Inclusion Professionals across the school. Level of Support and Instruc<ons
- Addi>onal support in mainstream classes with Classroom Teacher consulta>on
 - Group interven>ons outside of the class
 - Targeted support of class work and class learning ac>vi>es

Procedure for ELL Support System • Step (1) Pre-referral from ELL Support Team (ELLST) • Step (2) Referral, Evalua<on, and Eligibility Determina<on

The ELLST would decide based on the following evidence whether the child is eligible for ELL services or not. Evidence from CAT 4, MAP, Internal assessment (Forma>ve Assessment, Summa>ve Assessment) Parents' observa>on, assessment of class teacher, assessment of SEN teacher, assessment of Head of Inclusion or Wellbeing, and evidence from students' porlolios.

- **Step (3) Seeking Parental Consent for Pull-Out** The ELLST will ensure the parental consent for level three pull-out instruc>ons of ELLs to proceed with targeted instruc>ons.
- Step (4) Developing Individualized Learning Plan (ILP) The most important elements of the ELL program are the targeted goals and objec>ves to uplip students' capacity to effec>vely communicate in the English language. The accommoda>ons and modifica>ons in the teaching methods, learning materials or learning environment will be specified in ELP.
- Step (5) Implemen<ng ILP

The ELLST would ensure the implementa>on of ELP to achieve the learning objec>ves for ELLs. Step (6) Monitoring, Reviewing, and Revising ELP goals and objec>ves.

The ELLST will monitor the implementa>on of ELP to ensure the learning objec>ves and the level of learning ac>vi>es remain aligned with each other. Moreover, they are implemented effec>vely. The ELLST will review term wise.

Gi_ed and Talented

Iden>fica>on of Giped and Talented students must be based on ability and not achievement. Some children may underachieve for a variety of reasons such as peer pressure, behavioral issues, special educa>onal needs, or reluctance to learn. All staff needs to be aware of this and look for 'hidden talents'. Both qualita>ve and quan>ta>ve informa>on can be used for iden>fica>on purposes.

Giped & Talented students shall be iden>fied using a variety of criteria, including elements of the following:

Triangula<on of scores on standardized and internal assessments:

1. CAT4 scores with the below classifica>on:

SAS	Descriptor	Stanine	National Percent Rank	Comments
127-141	Very High	9	97-100	Gifted and Talented
119-126	High	8	90-96	Potential Gifted and Talented

- 2. MAP results (95 percen>le or above) if CAT4 SAS is 127 141 3. Internal Assessment results
- Teacher Nomina>on and observa>on (using Nomina>on Form)
- Parent Nomina>on (using Nomina>on Form)
- Iden>fica>on by a previous teacher, previous school, external agency, or organiza>on. -Observa>on to iden>fy some of the below characteris>cs of gipedness:
 - 1. Giped students are open perfec>onists and idealis>c.
 - 2. Giped students may experience heightened sensi>vity to their expecta>ons and those of others.
 - 3. Giped students are asynchronous. Some giped students are "mappers" (sequen>al learners), while others are "leapers" (spa>al learners).
 - 4. Giped students may be so far ahead of their chronological age mates that they know half the curriculum before the school year begins.
 - 5. Giped children are problem solvers. Giped students open think abstractly and with such complexity that they may need help with concrete study and test-taking skills.

Giped students who do well in school may define success as geJng an "A" and failure as any grade less than an "A".

5. Staff

5.1 Inclusion Support Team

The Inclusion Support Team (IST) is a working party comprised of Fariha Rasheed, Shallet Alexandar, LSAs & external therapists.

The IST may also include teachers, parents, and teaching assistants. The IST will work in close collabora>on with all classroom teachers and other educa>onal staff to promote and implement inclusive educa>on across the school by removing barriers to learning and ensuring an inclusive culture.

5.2 Special Educa<onal Needs and Disabili<es - Head of Inclusion

The Head of Inclusion is responsible for the day-to-day opera>on, strategic planning and oversight of SEND across the school.

5.3 Inclusion Learning Support Assistant - LSA (1:1 Support)

A 1:1 Inclusion Learning Support Assistant LSA is an individual employed for the purpose of specialized or concentrated assistance with one individual student.

The role involves contribu>ng to the educa>on of the student within and outside of the classrooms and working alongside the enrichment team to iden>fy and plan, to ensure the student is fully immersed in school life.

The LSA will support access to class-based learning, conduc>ng 1:1 interven>on and small group sessions under the guidance of the Head of Wellbeing & Inclusion & SOD teacher, offering support about classroom and behavior management, as well as social integra>on and training.

5.4 Staff Development

- AXendance at all planning mee>ngs providing informa>on about students and advising on inclusive strategies for the classroom.
- · Informa>on on the Assessment database about individual students, including IEP targets.
- Con>nued professional development (CPD) to address specific areas of SEND.
- Aper-school workshop sessions for classroom teachers as part of the school training
- program, and as a forum for sharing good prac>ce.

All stakeholders recognize the learning poten>al of all students.

6. Accessibility 6.1 Equality

We are fully commixed to avoiding discrimina>on and promo>ng equality for all students. We seek to clearly and unambiguously ensure that students with medical condi>ons have full access to the curriculum, including Physical Educa>on and school trips. Staff members will liaise with parents, teaching staff, and outside agencies to remove barriers to the student's learning.

6.2 School Site

Our school building is complete with lips, accessible toilets, and self-cleaning facili>es for personal care. Each building is wheelchair accessible. We endeavor to ensure that people of determina>on, be they students, staff, parents, or visitors have full access to the range of services and ac>vi>es provided.

7. Admissions

VIS welcomes applica>ons from students of determina>on and those with specific learning difficul>es. In order for us to support every student appropriately, students are tested on entry and a member of the Response to Interven>on Team is involved once a SEND is flagged by parents and staff.

Applicants must declare any disabilises or specific learning disability at the sme of the applica>on to ensure the school can be fully equipped to provide appropriate support.

8. Assessment Access

Assessment Access Arrangements, Examples of adapta>ons that may be considered include:

- Extra >me- granted 25% extra >me; in excep>onal circumstances, this may be increased to 50% extra >me.
- Reader- to read the instruc>ons of the paper, the ques>ons, and the candidates' answers.
- Scribe- writes down, or word processes, a candidate dictated answers to the ques>ons. The candidate may use a word processor with the spelling and grammar check enabled instead.
- Laptop- word processor with the spelling and grammar check disabled.

Prompter- keeps the student focused on the need to answer a ques>on and then move on to the next ques>on.

- Modifier paper- modifica>ons include increased font and diagram size, alternate colored paper, and modified language paper.
- Supervised Rest Breaks- the >ming of the examina>on can be stopped and restarted when the candidate is ready to con>nue. If the candidate needs to leave the examina>on room, an invigilator must accompany the candidate. The >ming of these breaks depends on the nature of the candidate's needs/condi>on.

9. Iden<fica<on and Support

Early iden>fica>on of student needs is key to effec>ve inclusion, provision, and support of all students. All members of staff are accountable for the iden>fica>on of barriers to learning for students in their care. The Inclusion department offers support in screening and observing students to support the students and teacher. Members of the Inclusion Team work closely with all departments and the admissions team to ensure barriers to learning are iden>fied as early as possible, parents also play a key role in working alongside the school throughout the iden>fica>on process.

10. Individual Educa<on Plan (IEP)

If a student is unable to access the mainstream curriculum and receives wave 3 support from a Learning Support Assistant along with having a formal diagnosis, then an Individual Educa>on Plan (IEP) and Individual Learning Plan (ILP)will be put in place.

Within the IEP, a student will have academic, social/emo>onal, and/or physical/behavior/communica>on targets which will be set by the Class teacher and the SEND coordinator. These targets will be reviewed with the student's parents alongside the class teacher and any outside agencies working with the student such as Educa>onal Psychologists and or therapists.

In combina>on, the mul>-disciplinary team will agree on the next set of targets put forward and will work as a team to achieve these. All students who are placed on an IEP will s>ll have full access to mainstream curriculum however it may be modified to ensure the student can access, progress, and succeed at his/her level.

11. LSA Hiring Process

LSAs will be hired as per below men<oned criteria:

Qualified LSAs will be hired with the parent's consent.

+971 4 320 8000

- The head of Inclusion will be fully involved in the hiring process. Based on the child's individual needs, LSAs will be selected
- Parents cannot terminate LSAs without bringing them to the Head of Wellbeing &
- Inclusion no>ce.
- Parents will pay a decided salary every month to LSAs not later than the 5th of every
- month.

Appendix 1- Different levels of support mapped against the WAVE model Waves of Intervention Model Wave 3 (LSA) Wave 3 Students who need the support of an additional adult to dditional highly be able to access the curriculum.

Wave 2

personalised

interventions

Additional interventions to enable children to work at age-related expectations or above

Wave 2 (SEN 2)

Provision - LSA support + SEN intervention 3 hrs/week

Students who are significantly behind peers and need specialized intervention to catch up.

Provision - SEN intervention 3-4 hours per week

Wave1

Inclusive quality first teaching for all

Wave 1 (SEN 3)

Students whose additional needs can be met in the classroom and/or students who need monitoring exit / entry to program.
